When designing a life for ourselves we must first determine what we are talented at, what fires us up and what we truly believe we were gifted by God Himself to do. Below you will find a series of questions and rules to follow you when indentifying your true calling in life. It is only when we identify our true calling and walk in that element in which we have a passion for that we truly experience life at its fullest. Please answer each of the questions from your honestly and from your heart. If you are unsure then count it as a mark against the dream in question for your life. It has been said that when the dream is right for the person and the person is right for the dream, the two cannot be separated from each other. I believe that to be the truth. My prayer for you is that The Make it Happen Dream Navigator helps you find what you love to do in life, and once discovered, you pursue it with all your might and walk in your calling on a daily basis.
